KERNOW RESOURCES & DEVELOPMENTS LTD.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2008
(Unaudited – Prepared by Management)

1. BASIS OF PRESENTATION

The consolidated financial statements contained herein include the accounts of the Company and its wholly owned subsidiaries. All significant inter-company balances and transactions have been eliminated upon consolidation.

These interim consolidated financial statements have been prepared by the Company in accordance with Canadian generally accepted accounting principles. All financial summaries included are presented on a comparative and consistent basis showing the figures for the corresponding period in the preceding year. The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of annual financial statements. Certain information and footnote disclosure normally included in annual financial statements prepared in accordance with Canadian generally accepted accounting principles has been condensed or omitted. These interim period consolidated statements should be read together with the Company's audited consolidated financial statements and the accompanying notes for the year ended December 31, 2007. In the opinion of the Company, its unaudited interim consolidated financial statements contain all adjustments necessary in order to present a fair statement of the results of the interim periods presented.

2. NATURE AND CONTINUANCE OF OPERATIONS

The Company is incorporated under the laws of the Province of British Columbia. The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. To date, the Company has not generated significant revenues and is considered to be in the development stage.

The recoverability of the amounts shown for mineral properties and related deferred exploration costs are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production.

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. Continued operations of the Company are dependent upon its ability to receive continued financial support, complete public equity financings, or generate profitable operations in the future.

5. MINERAL PROPERTIES

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to all of its properties are in good standing.

5. MINERAL PROPERTIES (cont'd...)

Jales, Portugal

In October 2001, the Company entered into an agreement to acquire a 100% interest in the Jales gold property from Target Europe Corp. As consideration, the Company issued 800,000 common shares at a value of \$73,430 and will issue a further 750,000 common shares upon the property reaching commercial production. There is a 3% royalty payable to the Government of Portugal on all minerals produced from the property. The Jales property consisted of an exploration license granted by the Government of Portugal.

During 2002, the Company entered into an option agreement with St. Elias Mines Ltd. ("St. Elias"), a company related by a common director at the time, whereby St. Elias can earn a 51% interest in the property in exchange for cash payments totalling \$50,000 (received), incurring cumulative exploration expenditures of \$1,500,000 (completed) on the property and issuing a total of 500,000 common shares (received) at a value of \$106,000 to the Company over a three year period. St. Elias has earned a 51% interest in the property and elected in 2005 to earn a further 24% interest in exchange for additional cash payments totalling \$100,000 (\$25,000 received), incurring additional exploration expenditures of \$2,500,000 and issuing an additional 1,000,000 common shares over a three year period.

In April 2007, St. Elias informed the Company that it had decided not to proceed with the second option and therefore retains a 51% interest in the Jales/Gralheira gold property.

In May 2007, the Company was awarded an experimental mining license, replacing the exploration license for the Jales property from the Direcção-Geral de Geologia e Energia ("DGGE"), a division of the Portuguese Ministry of Economy and Innovation. The experimental license is for a period of three years. A performance deposit in the amount of €50,000 has been posted and a minimum of €750,000 must be expended on the property over the three year life of the license.

The Company has a Technical Services Contract with St. Elias whereby St. Elias will reimburse the Company, as operator, for exploration costs incurred on a pro rata basis (51% as to St. Elias and 49% as to the Company). In addition, St. Elias will pay the Company an 8% operator fee based on 100% of the exploration costs incurred on the property. During the three month ended March 31, 2008, the Company recovered \$19,486 (2007 - \$14,696) in exploration costs. During the three month period ended March 31, 2008 the Company also earned \$1,907 (2007 - \$1,175) as an operator fee.

Poco das Freitas Property (Boticas), Portugal

During the year ended December 31, 2004, the Company entered into a contract of exploration with the government of Portugal to explore the Poco das Freitas property located in northeast Portugal. The contract was initially for two years and was renewed for a further two years expiring in October 2008. The Company completed its commitment to incur €45,000 (approximately \$73,300) of exploration work on the property in the first two years. It has completed a further €45,000 of exploration work that was required by October 2008.

In addition to the 3% royalty payable to the Government of Portugal, the Company must pay an additional €50,000 (approximately \$81,400) per year for 5 years in the event of production.

5. MINERAL PROPERTIES (cont'd...)

Alandroal Property, Portugal

The Company has an option agreement with Rio Narcea Gold Mines Ltd. (“Rio Narcea”) to acquire an initial 60% interest with the right to earn the remaining 40% in the Alandroal Property in Southern Portugal.

The Company can earn a 60% interest by incurring exploration expenditures of €350,000 (approximately \$539,000) (\$259,202 incurred to date) and issuing an aggregate of 150,000 common shares (50,000 issued at a value of \$11,375) over a three year period. In addition, the Company can elect to earn a further 15% interest in the property by solely funding a bankable feasibility study and issuing 1,000,000 common shares. The Company has the right to acquire the remaining 25% undivided interest by issuing 3,000,000 common shares within 30 days of attaining commercial production.

Alto Sobrido, Portugal

In May 2007, the Company entered into an exploration contract with the Direcção-Geral de Geologia e Energia (“DGGE”) for the Alto Sobrido property, in the north east of Portugal. The exploration contract is for a period of two years and can be renewed for a further three, one year periods each by reducing the area of the license by 50% at each annual renewal. A performance deposit in the amount of €7,000 has been posted and a minimum of €25,000 must be expended on the property during the first year and thereafter a minimum of €30,000 must be expended each year over the life of the license.

In June 2007, the Company signed a Letter of Intent with Global Minerals Ltd. (“Global”) that will grant Global an option to earn a 50% interest in the Alto Sobrido property.

The option grants Global the right to acquire a 50% interest in the property by completing the following:

- i) issue 50,000 shares and make a cash payment of \$25,000 to the Company on or before July 24, 2007; (received)
- ii) complete a first year work program of €100,000;
- iii) issue 100,000 shares (received) and a cash payment of \$50,000 to the Company on or before May 25, 2008;
- iv) complete a second year work program of €150,000; and
- v) issue 150,000 shares (received) and a cash payment of \$75,000 to the Company on or before May 25, 2009.

If Global earns the 50% interest, the Company can elect whether to participate in a 50-50 joint venture for the further exploration of the property. If not, Global can earn a further 10% in the property by completing further exploration work totalling €750,000 and making further cash and share payments to the Company of \$250,000 and 600,000 shares on or before May 25, 2011.

The Company is the operator of the property and will remain so as long as the Company owns at least a 25% interest in the property.

10. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash, receivables, marketable securities, deposits, and accounts payable and accrued liabilities. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

At March 31, 2008, approximately 71% (December 31, 2007 – 68%) of the Company's accounts payable and accrued liabilities and all of its deposits are denominated in Euros. The Company does not use derivative instruments or foreign exchange contracts to hedge against gains or losses arising from foreign exchange fluctuations.

11. CONTINGENCIES AND COMMITMENTS

The Company has provided letters of guarantee to the Government of Portugal for its exploration contracts on the mineral properties in Portugal totalling \$61,383 (€42,500) (2007 – \$61,383 (€42,500)) (Note 5). €24,500 of this guarantee is backed by a term deposit purchased by the Company and held at the Company's bank. €7,000 has been reimbursed to the Company by its joint venture partner. The remaining balance of €1,000 has been guaranteed by the bank without requiring the Company to purchase a term deposit for this amount (Note 4).

The Company entered into a consulting agreement effective September 1, 2006 with its President for management services, expiring September 1, 2008. The Company agreed to pay \$10,000 per month and severance of \$240,000 in the event of a change of control of the Company, and 200% of any compensation due over the remaining term of the contract in the event of termination other than due to a change of control or for other than just cause. The Company also agreed to grant stock options to purchase not less than 1,000,000 shares to the President. The agreement may be extended for a further two years.
